

Special Bulletin– Spring 2020 CGSNA - Eastern Canada Branch

Greetings Everyone,

We trust that you and your family are staying well during the unprecedented COVID-19 circumstances that all of us are living at present. Hopefully, you are following the recommendations issued by medical and government officials and that you are finding ways to deal with the related difficulties without knowing the time frame of this situation.

Louise and I remain quite well at present. We have had the flu shots and pneumonia vaccines and we are very careful about what we do. Weather permitting, we go out to get some fresh air and take short walks near our home. As required, we have medications delivered and a lady friend does some grocery shopping for us and other friends have offered help if needed.

Our activities are limited during the winter months but we, along with some of our local ECB members, attended the annual Burns Night in January. We normally follow sports events on TV but now that everything has been postponed or cancelled, we keep occupied in other ways. I am still involved with correspondence regarding our CGSNA branch membership matters as well as personal messages and Louise does a lot of reading, genealogical research and clearing files. We watch TV news sparingly!

We are looking forward to warmer weather. It is supposed to be spring now but judging by the mounds of snow around here, the “real” arrival of spring is some weeks away - hopefully before the month of May!

For your information, due to the Coronavirus, the UK Gathering for the 60th Anniversary of the Society scheduled for April 2 - 4, 2020 has been postponed until some time in November. The website www.clangunnsociety.org includes some interesting postings and information that you might appreciate during this time of crisis.

In closing, we send you our best wishes and stay safe and well.

Yours aye,

Louise and Edward (Ted) Gunn
Co-Commissioners
ECB of CGSNA
